

Stanbrook & Nicholson

Heritage Aluminium
Windows & Doors

The **marriage** of
traditionally crafted
hardwood & **modern**
aluminium frames

www.san.co.uk

Giving Heritage to your contemporary or new build home...

Our Heritage style windows and doors are becoming increasingly popular with both new build and contemporary/modern house projects and renovations, particularly when accompanied by our endearing range of modern oak or our selection of hardwood sub frames.

The elegant, low-profile designs and contrasting aluminium and natural wood frames, can greatly compliment the appearance of many modern homes, adding that subtle traditional touch.

Why choose Heritage for your home?

- Meets specifications for new build homes or extension projects...
- Range of modern styles, including anodised metal and matt finishes...
- Dual colour frame options available, both internally and externally...
- Modern flat frame sections and beads are also available...

- Stanbrook & Nicholson offer a range of hardware that is elegant, functional and especially manufactured to compliment the traditional design of your heritage windows...
- Wide range of glass options...
- Wide range of colour options – up to 200 RAL colours.

Heritage style windows & doors

Stanbrook and Nicholson's heritage window and door range has been carefully designed to correctly replicate the appearance and slim sight-lines of traditional steel and crittall windows, or similarly to replicate this elegant design for new homes or renovations.

Producing attractive and traditionally styled windows and doors that benefit from modern security, low maintenance and thermal efficiency, Stanbrook and Nicholson's heritage range is also suitable for use in listed buildings and in conservation areas.

The features of our Heritage range

- Suitable for use in listed buildings and in conservation areas...
- High security – With multi-point locking as standard and laminated glass options...
- Elegant design – slim sight-lines with bespoke oak or hardwood sub frames...
- Thermal efficiency – using a polyamide break and 16mm or 24mm Krypton and Argon double glazing units...
- Ultra slim line outer-frame – Fixed lites of just 25mm and only 14mm visible frame...
- Can be fitted into existing timber frames, brick and stone surrounds...
- A low cost alternative to replacement steel window frames...
- Weather tested in accordance with BS6375 parts 1 & 2....
- Low maintenance – 25 year finish guarantee on powder coated aluminium finishes.

Taking pride in your heritage

Quality guaranteed

Given our precise attention to detail, we are extremely confident that your project won't run into any problems. However, we are equally aware that anomalies can occur, and by choosing Stanbrook & Nicholson you will receive a quality aftercare service. Our comprehensive guarantees won't cost you anything extra and will give you peace of mind in the unlikely event of anything going awry.

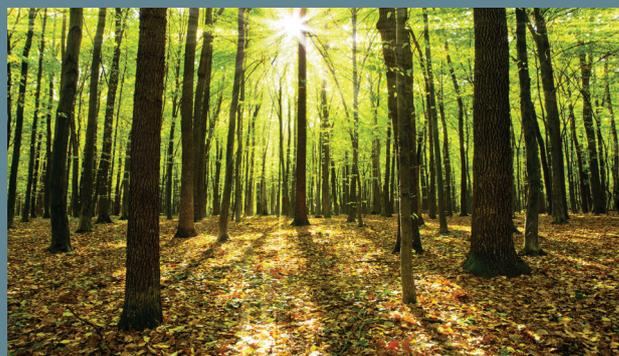

Latest technology

Our staff are constantly modifying our designs to ensure our customers are receiving the best product on the market and ensuring we can deliver on the very latest advancements, in terms of design, thermal efficiency and manufacturing quality.

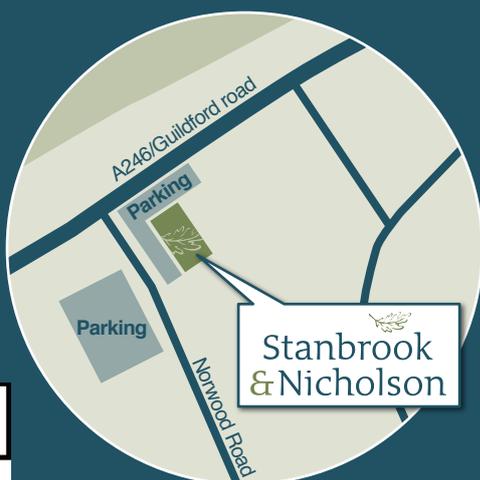

Environmental pledge

All timber used in the making of our hand-crafted, bespoke timber products comes from sustainable sources. Similarly, aluminium is also a sustainable and recyclable material. Furthermore, the overall design of our Heritage windows and doors, helps to reduce the impact to the environment, by vastly improving the thermal energy performance of your home.
